

Quality Policy

We, at Lava are committed to establish a world class manufacturing operation by empowering people to excel in business processes. To delight customers with best in class quality products at competitive prices by developing a local ecosystem and creating employment, thereby adding value to all stakeholders.

The Objectives :

Empowering people through MyLAVA methodology

Developing products to cater to the changing needs of the customer in terms of features and price

Continually innovate product & process performance by improving process yields & making products more reliable, thereby reducing market defect rate

Ensuring on time delivery to the customer
